Look Ten Years younger Without Surgery

Come and look ten years younger at the Holistic Health Centre in central Woking. Using the most advanced technology to get rid of lines and sagging skin on the face neck and also lift the bust. The Holistic Health Centre uses the LPG Lift6 system.

The only system in the world capable of restoring the skins elasticity. This is achieved with the 3-dimensional gymnastic action of the patented LPG heads that deliver a regular, rhythmic, mechanical micro-pulsation (without the need to deliver an electrical current, like other less effective or advanced systems) when applied to the skin. Every square inch of skin is treated with an incomparably effective action in 3 dimensions.

The treatment is suitable for all skin types as the "flaps" on the heads can be adapted to all skin types, from the thickest to the thinnest. The lift6 simultaneously drains and tones the skin and has a wonderful relaxing affect as well as scientifically proven results. Even after one treatment you can feel the skin regaining it earlier tightness and elasticity. We can also improve your pout using the Lift6 lip plumping technique.

So look younger, de-stress relax and feel good at the Holistic Health Centre Conveniently located opposite the Big Apple and next to Sovereign Travel. To book your free 30 minute consultation on the benefits of the Lift6 non-surgical face lift call the Holistic Health Centre on 01483 724300.
